

### Dakota's Story

Dakota is a mahogany/red merle male who is about 6 years old. Dakota came to us as a result of a divorce; his owners needed to find a home for him as well as the other dogs they owned. When Dakota came in to Rescue, he had a number of issues: he would not share toys, treats, or affection with the other dogs in his foster home, nor would he allow himself to be brushed. After a few weeks in his foster home, Dakota started to show signs of improvement. We knew Dakota needed a special forever home where he was the only dog and would receive all the love and attention. Dakota just needed a family willing to give him a second chance. Dakota has been adopted by a loving couple and is showing slow but steady improvement. Dakota is a true rescue story and a reminder of what our work is all about.
